

Job Specification

We have an exciting opportunity to join our team at Colloide Site Services as an enthusiastic and hard-working **Lead Electrician**.

The successful applicant will join a team that bring specialist skills in water treatment, energy, environmental and facilities in order to provide engineering solutions, based in Limavady.

About the Role:

As an onsite, Lead Electrician, you will be responsible for the high quality and safe installation of all wiring across various products, ensuring all electrical fit work is completed on time and to the highest standards, and be responsible for overseeing a team of electrical maintenance engineers.

Duties:

- Responsible for the timely management of the electrical wiring of products.
- Demonstrate an ability to use electrical and hand tools.
- Excellent critical thinking and problem-solving ability.
- Ensure work is completed to meet the requirements of the ISO 9001 standard.
- Comply with the Company's Health and Safety policy procedures.
- Responsible for undertaking training or retraining associated with the post or the introduction of new working practices.
- Possess a thorough knowledge of safety procedures, legal regulations and guidelines.
- Ensure that you treat those with whom they come into contact in a courteous and respectful manner in accordance with the Dignity at Work Procedure.
- Undertake any other duties conducive with the effective operation of the post.

Personnel Specification

Essential Criteria:

- Possess an 18th Edition Qualification.
- Minimum of 3 years' experience working as an Electrician subsequent to the satisfactory completion of training.
- Relevant Control Panel experience.
- ECS Card.
- Ability to read drawings.
- Experience of Microsoft Office packages, including MS Word, Excel and Outlook.

- Excellent organisational skills with the ability to co-ordinate activities in a fast paced environment.
- Ability to meet deadlines, work calmly under pressure and work as part of a team.
- Ability to work flexibly, self-motivate, able to take ownership and act on own initiative.
- Ability to work accurately and to identify imperfections.
- Ability to communicate effectively at all levels.
- An aptitude for practical skills.
- Candidates must be willing to travel across various sites throughout UK and Ireland.
- Full UK Driving Licence.

Desirable:

- Relevant experience working within Water and Wastewater industries.
- Proficient in 3D CAD software, including the ability to generate complex 3D CAD assemblies and drawings. Solid works is preferred.
