

Job Specification

We have an exciting opportunity to join our team at Colloide Site Services as an enthusiastic and hard-working **Production Sprayer**.

The successful applicant will join a team that bring specialist skills in water treatment, energy, environmental and facilities in order to provide engineering solutions, based in Limavady.

About the Role:

Due to continued growth, Colloide have an exciting opportunity to join our expanding team. You will be liaising with Assembly Team, to support the overall completion of projects at a very fast pace.

As an onsite, Production Sprayer, you will be responsible for the accurate application of various paint systems including gel coating for moulds and parts, to a high standard, to meet customer specifications and production targets.

Duties:

- Responsible for the application of the Gel Coat, to a finish, on fibre glass parts
- Responsible for fibre-glass lay-up, using pneumatic spray gun.
- Responsible for identifying imperfections
- Maintain records of thickness of each part
- Responsible for in-build repairs
- Responsible for the safe operation of plant, equipment and/or hand tools associated with the paint-preparation & paint processes.
- Responsible for compliance with the company's Health and Safety policy procedures.
- Responsible for undertaking training or retraining associated with the post or the introduction of new working practices.
- Undertake any other duties conducive with the effective operation of the post.
- Ensure work is completed to meet the requirements of the ISO 9001 standard.
- Ensure that you treat those with whom they come into contact in a courteous and respectful manner in accordance with the Dignity at Work Procedure.

Person Specification

Essential Criteria & Skills:

- A minimum of 2 years' experience working within a production spraying environment.
- Ability to adjust paint settings, paint flow, line speed and temperatures.

- Ability to see imperfections and flaws and rectify defects caused by wet spraying process.
- Able to perform clean down of manual spray stations.
- Takes full responsibility for quality, quantity and inspection of work performed.
- Good understanding of customer deliverables and the impact of failure and cost of poor quality.
- Ability to work hard to maintain constantly changing product flow through a busy production environment.
- Ability to work on own initiative to resolve any wet spray paint related issues.
- Ability to work accurately and efficiently.
- Ability to comprehend and follow verbal and written instructions.
- Strong team working ethic, with the drive and flexibility to maintain pace of work as priorities and requirements change.
- Experience of Microsoft Office packages, including MS Word, Excel and Outlook.
- Excellent organisational skills with the ability to co-ordinate activities in a fast-paced environment.
- Ability to meet deadlines and to work calmly under pressure.
- Ability to work flexibly, self-motivate, able to take ownership and act on own initiative.

Desirable:

- Relevant experience working in water & wastewater industries.
- Relevant experience working in a fabrication environment.
