The following may be cited as the Quality Policy of

**Colloide Engineering Systems**

Colloide Engineering Systems is determined to introduce a high level of quality service into its activities in order to ensure that the needs of customers are satisfied - thus allowing The Company to develop and prosper.

Colloide Engineering Systems is fully committed to comply with the requirements of ISO9001:2015. We will continuously improve the effectiveness of the Quality Management System with the intention that we develop our existing business and gain entry into new markets.

Senior Management is committed to this system and will ensure that it is communicated and understood within the organisation. All staff are expected to be fully conversant and comply with the policies and the detailed procedures which have been documented.

This Policy will be reviewed annually for continuing suitability. In addition, Business / Quality objectives will be reviewed annually at the Annual Management Review Meeting.
